

ST.LEONARDS and ST. IVES EX-SERVICEMANS CLUB

The Hash circled up at 11.00 am as usual and the GM did his usual spiel . The main shot off never to be seen again and the mini ambled for what seemed like half an hour through the streets and houses of this sleepy residential area . Eventually we entered the woods around Moors Valley country park nursed by the two mini hares Chippendale and Boy Lost . One long straight track followed by a dozen more and then the monotony broken by 10 feet of shiggy . What's this we don't do shiggy on the mini ! Hansel's charge Sean managed to fall in and emerged a bit wet and not amused . Then another diversion a Tree Walk . Up we went and then at the other end who should we meet waiting for us none other than the Greek God last seen about an hour ago . How did he get here ?? Very experienced hasher he said . Finally we arrived back at the Club after 4 miles . HEART RATE just . CALORIES no idea , who cares . CLIMBS just the Tree Walk . Stiles nil.

The Club did us proud with a chilli con carne and vegetarians catered for . Usual Down Downs and 2 namings . Angie as of brown husky dog is now Sloppy Tits or something like that . Hansel was re-named and is now SheatZu or something like that . All in all a good day out . Thank you hares .

Two Old Gits at the back .
